one of those extinguishers with a flaring nozzle and quickly snuffed the fire out. About 2 minutes later a couple of fire engines and a cop arrived (don't know who turned in the alarm). I had to answer a lot of questions and sign a form.

Phoned the Auto Club, and after some delay, a tow-truck arrived and pushed us to the Rubidoux Motor Co. (a Cadillac agency) where they repaired burned electric wiring and other odds-and-ends. I also had them drain and refill the gas tank to do away with any alcohol remains. We got started again for home about 2³⁰. The homeward ride was uneventful, except that the engine died everytime we had to stop for a boulevard stop or a light, and did not always start readily, a very uncomfortable condition for highway traffic on Sunday.

Reached home at 4⁴⁵ tired and mad
miles for the trip 1293. ^{Spent the evening} unloading.

MONDAY 26 MAY

1958

Monday in Whitsun Week

Heard via radio that Shaw had been bitten by a python on the Science in Action T.V. program.

then pushed me 2 mi. more to the first gas station. A most obliging person and he wouldn't accept a cent. Got started, and after getting lost a couple of times between N. Hollywood and Burbank, put up there at the Starlight Motel, ^{miles today 41 1/2} a fine place.

TUESDAY 27 MAY

1958

Tuesday in Whitsun Week
147th day - 218 days to come

Left the Redwood Rancho Motel at 9³⁰. First called on Christine Williams at Atherton; then on the Les Griffins in Palo Alto. Finally started south at 10⁵⁵; a rather warm day. Stopped at Anderson's in Buelton and bought some odds and ends.

Had bad luck on the Conejo grade which was under reconstruction from bottom to top with no passing. Got caught behind a couple of trucks at the ~~to~~ bottom and had to stay behind them all the way, going so slow (maybe 3 mi./hr) that it didn't register on the speedometer. This slow pace ate up the gasoline so I finally ran out near the top. Turned off and finally decided to try alcohol. Poured in a gallon of the pure 95% stuff but it wouldn't start.

Finally waved to a passing light truck that I thought was a service garage truck (it wasn't) and he came out of line, attached a chain, and pulled me to the top of the hill (about 1/2 mile).
(Continued on May 26)

WEDNESDAY 28 MAY

Ember Day
148th day - 217 days to come

Left the Starlight Motel at Burbank at 9 AM and went to visit Cecil Badgley at Claremont, where we left at 11³⁰. Had a little trouble starting, which should have been a warning that the alcohol was still unconsumed in the tank.

Stopped on a side street at 8th and Victoria in Riverside for forties, and then the car wouldn't start. So Gg walked ~ blocks to a Standard Station and got a gallon of gas in a can. Meanwhile I had removed the air cleaner, a difficult job because the engine was hot. Poured in some gas and tried to start. No luck. Removed the filter again and poured in some more. It caught fire and soon there was a big blaze under the hood. Quite a crowd gathered, but no one could do anything, blanketing with cloths was ineffective. I thought the car was a goner and started to unload some of our baggage. Only got two pieces out when a man came up from an adjacent construction job, with

THURSDAY 29 MAY

1958

149th day - 216 days to come

This morning had a hard time starting the car. Finally nursed it as far as the door to Tussey's garage where it died for good. Lucky I hadn't tried to take it down town. Eric worked on the car until 4³⁰, replacing the carburetor and doing other work so that it could be used over the holiday week end. The floats had been ruined and he said it was a miracle I had ever got home.

Called the Auto Club and they were quite snippy as to their liability and particularly as to my having had repairs made before an inspection of the damage, and an estimate of the cost. Told them the car could be seen at Tussey's garage, but they said they had no inspector to send around.

 Started for San Francisco, Sacramento

 Had some missing like a vapor lock
 at Elsenore junction. Much worse
 just south of Cajon Station. Got a
 push by a small truck and started
 again. Went to a garage (Odom's Cajon
 Service) where they diagnosed the
 trouble as fuel pump. They installed

Miles today 383.

(August 28th, Continued)

Found the radiator almost empty due to a leaky "soft plug" in the water system. Couldn't have this fixed here so drove on to Sacramento. In the town the engine stalled at every stop, making driving very difficult because of not knowing directions, State Fair crowds, and one-way streets. Finally got to the Hotel Senator garage at 4³⁰. Miles today 82. Hot. Did nothing in evening.

THURSDAY 28 AUGUST

Discussed the Rattlesnake reprint problem at some length; also a possible advertising brochure to contain quotations from reviews and letters. The cost (without binding) has gone up to \$12,000 for 1000 more copies and the price would have to be raised. Naturally Fruege is much concerned over so large an investment lying idle for several years. No decision was reached. Fruege is to advise me. I told him my feelings wouldn't be hurt if a negative decision were reached.

Started for Sacramento at 4³⁰.
Stopped for gas at Vacaville.
(Continued on Aug 27th)

FRIDAY 29 AUGUST

We stopped for a while at Richardson's Grove.

Went to a snake-show along the way; only about 1/2 doz specimens, none worth crossing the street to see. The dame who ran it was obviously destitute. Said the place had recently been burned out (it looked it) so I didn't regret the 50¢ admission.

In the morning, we stopped to listen to Invitation to hearing. We reviewed The Newcomer.

Did a lot of telephoning to dealers in jars and caps and seemed to hit pay dirt on commercial covers which have long been sought in vain. Will have to send samples. Out of luck on Mason type covers with glass discs; only one poor lead in St Louis which will be followed up later. All dealers advised this type not manufactured any more.

Spent the afternoon at the hotel resting and reading.

In the evening had dinner at the Palmer House Coffee Shop and then went to see a movie at the Esquire -- Danny Kaye in "Me and the Colonel" which was quite amusing.

SATURDAY 18 OCTOBER

St. Luke, Evangelist

✓ 291st day - 74 days to come

Gg went off with Laura. I walked around and bought a few things and then had lunch at the Coffee Shop. Left the room at 3 PM and checked the baggage.

At 4 PM discovered I didn't have my railroad tickets for the return trip. This was a considerable shock. Contacted the watchman's department and got permission to search my room. Withdrew my valise from the check room. No luck. Thought the tickets must have got mixed with the pile of newspapers in the room that had gone down the chute.

Finally went to the Hotel's Railroad desk and bought duplicate return tickets to San Diego. The man in charge was very helpful, and made special arrangements whereby I could claim my Pullman reservation, of which, fortunately, I had a record. But all this excitement and searching around didn't do my engine any good.

We had dinner at the Palmer House Grill and then claimed our baggage and went to the Rock Island Station. There I opened my suitcase and found the missing tickets. Left Chicago for Des Moines at 10 PM CST.

SUNDAY 19 OCTOBER

1958

FRIDAY 24 OCTOBER

1958

United Nations Day
297th day - 68 days to come

Went to Dr. Merrill optometrist this morning from 9³⁰ to 11³⁰ and had my eyes thoroughly tested and prescriptions written up for new glasses. But he said present glasses were good enough; prescriptions only written so that glasses could be made if present ones were broken. This is remarkable as present reading glasses are at least 20 years old; and distance glasses are from the 5 and 10 counts. He found one dead spot in my left eye. Said it was due to insufficient circulation. Said I should come back in 4 months and have tests made to see if it is expanding. Prescription on opposite page.

Then went to office and discussed ~~with~~ decision with Sherman and Uhle.

Feeling better today

Packed in the morning. Left the car in a side street about a block from the Shrine Auditorium. Ate lunch at a counter a block from the Auditorium.

Attended a presentation of Il Trovatore from 3 to 6¹⁵. About as enjoyable as one of those romantic operas with their fantastic plots can hope to be. A rather outstanding performance. Leontyne Price substituting for Eileen Farrell who was ill. She was very good and the audience highly enthusiastic. Also Jussi Byorling, Irene Dalis, Quilico, Elyn. Went to the opera tonight with Alice Miller (gg still sick). La Forza del Destino. Well sung, but the opera has such a coincidence wrong plot that it keeps getting in the way of the music. Started for Los Angeles this morning on the 6³⁰ train. Stalled for a long time at Santa Ana and Fullerton by a freight wreck beyond. Busses came to Fullerton to take the passengers on to LA but this was so late (about 10) that I saw there was no chance to arrive in time for the Founders Insurance meeting scheduled for 10. His nervous wetting of his lips
is quite noticeable. I thought he made

China, and for holding on to Quemoy

Went down town and did some

Arrived in San Francisco on time. Went to the Fairmont Hotel which was the official meeting place for the California State Chamber of Commerce. Although advance reservations had been made by the Chamber staff, I had to wait an hour or so to be assigned a room.

Called Mrs. Rita Carroll at the U.C. Press and found they still hadn't made up their minds on printing an additional 1000 copies of Rattlesnakes. They are still holding the type. I told Mrs. C. I wasn't becoming impatient and had no desire to rush them, but merely wished to know of any decision when finally made. She said I would hear from them. Must be very inconvenient and expensive to hold all that type.

At noon attended a very large luncheon meeting and heard Secretary of State John Foster Dulles talk on U. S. Foreign Policy, with particular reference to the Pacific and Red China. He is a very forceful speaker for his age.

At the conclusion of the meeting I saw Dr. Robert C. Miller of the Calif Academy of Sciences and asked him about the proposed "Profile" of me that was to appear in Pacific Discovery. He seemed to know little or nothing about it. I told him I wasn't looking for any undeserved puff and that I would be just as well pleased with a simple review of Rattlesnakes which would certainly be in line with the Academy's standing in herpetology. He said it certainly deserved a review if free copies had been donated. I told him that U.C. had given the Academy a set and I had present one to Slevin for the herp. dept. I think he will look into the situation. The discussion didn't seem to make him particularly happy, maybe because he wasn't familiar
